

COBBLED PAVERS

Whitacre Greer —
Pioneers in clay products

Is your landscape lacking?

Capture the charm of peaceful European villages and picturesque college towns.

Founded more than a hundred years ago, **Whitacre Greer specializes in fired-clay pavers for residential, commercial, municipal, or institutional use.** Made in America, Whitacre Greer clay pavers are used in residential and commercial projects across North America and are the paver of choice for Emory University, Georgia Institute of Technology, the University of Maryland, the University of Dayton, and many more colleges and universities.

Safety and peace of mind.

Whitacre Greer vacuum, dry-pressed pavers comply with all applicable industry standards. **Learn more about safety and peace of mind from Whitacre Greer at wgpaver.com.**

COBBLED PAVERS

Colors and finishes.

Available in a variety of attractive earth-tone colors that never fade, Whitacre Greer Old World Series cobbled pavers lend charm and durability to both commercial and residential landscapes.

Whitacre Greer cobbled pavers are made from rich Ohio clay deposits and vacuum dry-pressed, making them practically impervious to ground water and freeze-thaw damage. Pavers are also available with or without lugs for even spacing.

Ask about creating new color blends and brick patterns to match your taste and needs.
