

ELIMINATE PACKAGE THEFT

"My company is Marnella Homes, we are a home builder in NW Oregon and SW Washington State. Brandon and Jeff donated a Box Gobbler 1428 to us for, the Sedona, a home we built in our local parade of homes with all proceeds benefitting the St Jude Research Hospital. It was a hit throughout the show. With this being a new product, we had lots of questions. We worked with Jeff through construction and he was great. Our homeowner has had questions after move-in and has mentioned how helpful Jeff was as well. I love this product and have enjoyed working with Jeff throughout the process. We are making this a regular offering in both our single family and multi-family projects. I would recommend if anyone is looking for a secure, stylish and easy to install and maintain parcel box, look no further."

- Tony Marnella

PACKAGE ONLY

Box Gobbler™ 1428

This through-wall package drop creates a safe space for package deliveries and manages the most common-sized boxes shipped.

FEATURES:

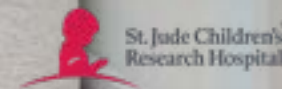

- ✓ The 14 x 28-inch wall opening and roller bottom door will move packages through walls with ease
- ✓ K-Flex 2 inch Insulated door helps maintain heating and cooling efficiencies
- ✓ 4-6 digit keypad controller unlocks the door, just enter the code, open the door and then place packages in
- ✓ Top Quality Stainless Steel electronic rotary latch secures the door
- ✓ Works great in combination with our 3-foot conveyor ramp

ONE OF THE BEST ADDITIONS TO OUR PROPERTY!

"This is one of the best additions to our property I have purchased to date. They have been extremely responsive to every call when I had a question during the order process and after the installation. Delivery services picked up on the change almost automatically and deliveries have been dry and secure. This will also add to property value at the time of sale."

PACKAGE ONLY

Box Sentinel™ Tapered

This full cabinet insert is perfect for fences or column placements. It will receive large packages and works great for returns. It is available as a front loader only or as a dual door for applications where rear door package retrieval is required.

FEATURES:

- ✓ Keeps your packages safe from pets, passersby, and the elements while having safe access to your deliveries from the rear
- ✓ Patented finger bottom design lifts parcels up and out when either door is opened
- ✓ Keypad controller secures the front door and works well for multiple deliveries
- ✓ Rear door features make access to parcels simple and secure
- ✓ The interior cabinet light comes on when either door is opened
- ✓ Solar options available

Box Sentinel™ XL48

This extra large parcel only model works great for column, fence and stand alone placements. It is available as a single front door or dual door if you require rear door package retrieval. When integrated in a fence or column a second keypad is required to offer easy access to unlock the rear door.

FEATURES:

- ✓ Offers twice the capacity of our standard parcel safe and still features our patented finger bottom design that lifts parcels up and out when either door is opened
- ✓ Speed limiters assist both doors when opening and closing
- ✓ Works well for multiple deliveries
- ✓ Dual Keypad access controls offers top security and easy access from both the front and rear
- ✓ Interior cabinet light comes on when either door is opened
- ✓ Solar power options available

MAIL & PACKAGE BOX

Box Sentinel™ with Letter Slot

This model is best if you only need inbound letter mail (not outbound letter mail) and package delivery. This model may also be used for free standing applications and is only available in dual door.

FEATURES:

- ✓ Letter slot chutes mail to a separate drawer located above the parcel compartment that is only accessible from the rear
- ✓ Keypad controller secures the front door and works well for multiple deliveries
- ✓ Patented finger bottom design offers easy delivery and retrieval access by lifting the heaviest packages up and out when either door is opened
- ✓ Can receive up to 26"x18"x16" packages (85% of all packages shipped)
- ✓ Interior cabinet light illuminates when either door is opened

MAIL & PACKAGE BOX

Mailbox Sentinel™

This parcel safe can easily receive and return letter mail. It is available as a single door only. Call for more details.

FEATURES:

- ✓ Can receive up to 26"x18"x16" packages (85% of all packages shipped)
- ✓ Interior cabinet light illuminates when either door is opened
- ✓ Letter slot keeps mail separate from the package compartment on the front. Both letter and packages are accessible from the rear.
- ✓ Keypad controller secures the front door and works well for multiple deliveries
- ✓ Patented finger bottom design offers easy delivery and retrieval access by lifting the heaviest packages up and out when either door is opened
- ✓ Has a separate outbound letter compartment
- ✓ Solar power options available

I SPENT A LOT OF TIME RESEARCHING

We absolutely love our Mailbox Sentinel! While building our new home, I spent a lot of time researching anti-theft parcel boxes. The MB Sentinel combination mail and package box was the perfect find! We feel much more comfortable ordering online, knowing that our packages and mail will be secure until we get home to retrieve them. It is a bonus that the mailbox and parcel box are all-in-one. We couldn't be more satisfied!

Sue Mirmam

"As the premier security gate installation and service company in the Chicagoland area, our team loves working with MB Sentinel. Electronic Entry Systems has found that our clients have been looking for something exactly like these secure locking Mailbox and Box Sentinel parcel safes. The premium quality of their craftsmanship impresses our clients every time. It is truly a pleasure to work with a company that has our shared goals of ultimate customer satisfaction!"
