Transforming Turf Technology

(800) 544 - 0439 [www.grass-tex.com](http://www.grass-tex.com)

# ABOUT GRASSTEX

GrassTex is a world leader in manufacturing synthetic turf for residential and commercial applications. When it first opened its doors in 1976, GrassTex established itself as a pioneer in the creation of safe, durable turf technology. This innovative drive led to new advances in synthetic turf – it became safer, stronger and more natural in appearance. Developments like the Dow urethane backing, created for carpet in the mid-80's, increased synthetic turf's strength and durability. As synthetic turf technologies evolved, GrassTex adapted to meet commercial and consumer demand.

When the popularity of indoor soccer exploded in the mid 80's, GrassTex helped to invent the urethane backing which made the tough artificial turf of these fields possible. Huge strides were made to improve the overall quality and convertibility of artificial turf options. During this period of industry evolution, GrassTex was leading the way, pushing the creation of new technologies and constantly generating more advanced products. Soccer arenas, football fields, and putting greens were just a few of the major sports to benefit from the advances made by tougher, safer, more versatile turf.

GrassTex continues to offer the Hi-Tech turf system. The system now also incorporates cutting edge polyethylene fibrillated fibers for playability along with a texturized nylon thatch for performance combined with a new Polyurethane backing in its new Arena Turf designs. The Polyurethane backing called Silverback™, is the newest and most advanced available. Now golf, football, baseball and landscape turf can benefit from the increased durability of our Hi-Tech Silverback™ backing system.

CRAFTED WITH PRIDE IN THE U.S.A.

# LANDSCAPE

Imagine the perfect lawn any time of the year. Now, imagine that lawn being nearly maintenance free and pay for itself within 7 years or less. What you have is GrassTex, the leading manufacturer of synthetic turf. We stay at the forefront of the industry by manufacturing cutting-edge, natural looking synthetic turf for any application imaginable.

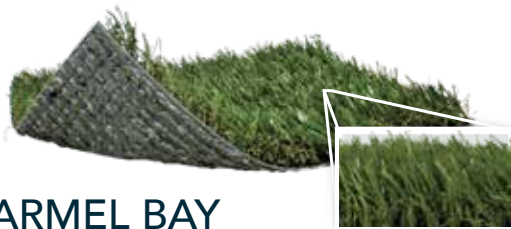

Whether it's for a residential backyard or a rooftop bar in downtown Manhattan, we've got you covered, with turf that is! Manufactured in the USA.

## RESIDENTIAL APPLICATIONS

- No mowing
- No watering
- No pesticides
- Kid and pet friendly
- Beautiful green lawn all-year round
- Saves time for what's important

## COMMERCIAL APPLICATIONS

- Hotels, casinos, resorts, country clubs, waterparks, hospitals
- Creates usable space on rooftops
- Curb appeal
- Virtually no maintenance

### CARMEL BAY

## ARTIFICIAL TURF ADVANTAGES

- Products are designed with the children in mind
- No harmful chemicals are used or needed to upkeep the surface
- ADA compatible
- Fall Zone safe (fall area/ heavy traffic areas do not get displaced like mulch)
- Life expectancy can vary, but typically 10-15+ years
- Products carry a manufacturer's warranty
- Made in the USA
- Ideal for Community Parks & Recs, YMCA's, Boys & Girls Club, Daycares, Backyards
- Consistent soft fibers with low abrasion
- Allows for more play time (no standing water)
- No rubber granules needed
- Available in other colors besides green
- Does not stain clothes like natural grass/ dirt

## LA JOLLA

<b>Standard Colors</b> Field/Green; Field/Olive	<b>Pile Height</b> 1 3/4"
<b>Primary Backing</b> ArmorLock™ 3L Polypropylene	<b>Total Weight</b> 82 oz.
<b>Coating Type(s)</b> SilverBack™ Polyurethane	<b>Fabric Width</b> 15 Ft.
<b>Perforations</b> Yes	

## CATALINA

<b>Standard Colors</b> Field/Olive	<b>Pile Height</b> 1 1/2"
<b>Primary Backing</b> ArmorLock™ 3L Polypropylene	<b>Total Weight</b> 67 oz.
<b>Coating Type(s)</b> SilverBack™ Polyurethane	<b>Fabric Width</b> 15 Ft.
<b>Perforations</b> Yes	

## CARMEL BAY

<b>Standard Colors</b> Field Green	<b>Pile Height</b> 1 1/2"
<b>Primary Backing</b> ArmorLock™ 3L Polypropylene	<b>Total Weight</b> 67 oz.
<b>Coating Type(s)</b> SilverBack™ Polyurethane	<b>Fabric Width</b> 15 Ft.
<b>Perforations</b> Yes	

## COUNTRYSIDE

<b>Standard Colors</b> Field/Lime; Olive/Tan Thatch	<b>Pile Height</b> 1 1/4"
<b>Primary Backing</b> ArmorLock™ 3L Polypropylene	<b>Total Weight</b> 59 oz.
<b>Coating Type(s)</b> SilverBack™ Polyurethane	<b>Fabric Width</b> 15 Ft.
<b>Perforations</b> Yes	

# PETT AREAS

It's easy to create a safe area for your best friend to play in. You want to keep your pets safe and happy, so let us help you build an area for them to play.

### WHY ARTIFICIAL TURF IS BEST FOR PETS

- Optimal drainage allows urine to freely pass through drainage holes allowing odors to be minimal, 30 per hour
- Soft polyethylene fibers create a comfortable surface for pets to run on or lie down on
- No harmful chemicals used or needed to upkeep the surface
- Easy clean up (rinse liquids/ scoop solids)
- Silverback™ coating ensures fibers stay intact

# EMERSON SOLUTIONS FOR

Outdoor areas covered with synthetic turf provide not only beautiful landscape around swimming pools, they also provide additional safety to the swimming pool area.

## COUNTRYSIDE

<b>Standard Colors</b>	Field/Lime; Olive/Tan Thatch	<b>Pile Height</b>	1 1/4"
<b>Primary Backing</b>	ArmorLock™ 3L Polypropylene	<b>Total Weight</b>	59 oz.
<b>Coating Type(s)</b>	SilverBack™ Polyurethane	<b>Fabric Width</b>	15 Ft.
<b>Perforations</b>	Yes		

## ROOFTOPS:

- Create usable space that is otherwise vacant and an eye soar
- Create a profitable space (commercial rooftops for business events, wedding receptions, parties, bar/ lounges)
- Pet relief stations for condo/ apartment dwellers
- Easy installation
- Creates a "green" space in areas that are usually surrounded by concrete or uninviting spaces
- Great drainage, no standing water

# AGILITY/SPORTS TRAINING

GrassTex has the system for your training needs.

## ARTIFICIAL TURF ADVANTAGES

- Perfect for functional training
- High performance quality
- Reacts naturally
- Improved durability and safety
- Helps create multipurpose areas
- Prefab logos, ladders, hash marks
- Clean and can be cleaned easily
- Consistent performance
- Velcro Systems available for portable training areas

### TRUE TURF

Design the perfect logo for your next tradeshow, sports' training field, or simply to create the perfect entry mat for your business!

## LOGOS:

- Custom Design
- Baseball Halos
- Mini Sports Training Facilities
- Team Logos
- Rooftops
- Sports Bar Entry Mats
- Running Tracks
- Tradeshow Booths

Both the Bermuda and V-Max products come with a 5mm attached foam cushion, which also allows us to create a portable training area with our Velcro System. If you are simply renting space for your CrossFit gym or simply covering a basketball court in the off-season, a Velcro System is your answer for an easy install and removable turf area.

**PURE, QUIET STRENGTH.**

Imagine having the strength of 7 Olympic weight lifters or weighing over 400 lbs and being able to do one armed pull-ups. Our new SilverBack™ is the quiet strength under your new synthetic turf that gives you peace of mind your investment is protected by unmatched strength.

**OLD BACKING**

**SILVERBACK™ BACKING**

**PURE TECHNOLOGY**

- SilverBack’s coating system takes advantage of the most advanced technology in the coating industry.
- Engineered with quality in mind from the pure polyurethane chemistry to the application system.
- Features technologically advanced chemistry focusing on offering the highest quality components to create the best coating system available.
- Applied using an application system designed specifically for this coating system in order to have full control of the entire system.
- Certified Quality - Our ISO 9001 - 2008, ISO 14001 and OHSAS 18001

**STRENGTH IS IN OUR DNA.**

ArmorLoc™ 3L utilizes a complete woven system as the foundation to deliver the world’s strongest artificial turf system.

Primary backing plays a vital role in the overall design of an artificial turf system. ArmorLoc™ 3L is non-directional, dimensionally stable and ensures no excess movement. Combined, ArmorLoc™ 3L with Silverback™ urethane coating and specialized yarns work together binding the DNA of all three components creating a thermoset bond. ArmorLoc™ 3L delivers the science of DNA strand building.

**REAL FLAG SET** - Includes:  
Cup sleeve, 6" cup,  
Plate with attached base,  
6" x 8" Red Flag
